An Easy Way To Get

The trouble with most thin folks who wish to gain weight is that they insist on drugging their stomach or stuffing it with greasy foods; rubbing on useless "flesh creams," or following some foolish physical culture stunt, while the real cause of thinness goes untouched. You cannot get fat until your digestive tract assimilates the food you eat.

There is a preparation known to reliable druggists almost everywhere which seemingly embodies the missing elements needed by the digestive organs to help them convert food intorich, fat-laden blood. This modern treatment is called Sargol and has been termed the greatest of flesh-builders. Sargol alms through regenerative, reconstructive powers to coax the stomach and intestines to literally soak up the fattening elements of your food and pass them into the blood, where they are carried to the starved, brokendown cells and tissues of your body. You can readily picture what result this amazing transformation should produce as with increased weight the cheeks fill out, hollows about neck, shoulders and bust disappear and from 10 to 20 pounds of solid, healthy flesh is added to the body. Sargol is absolutely harmiess, inexpensive, efficient. Lee & Oagood Norwich, and Chesbro's Drug Store, Willimantic, and other leading druggists of this vicinity have it and will refund your money if you are not satisfied, as per the guarantee found in every package.

NOTE:—Sargol is recommended only as a fleeh builder and while excellent results in case of nervous indigestion, etc., have been reported, care should be taken about using it unless a gain of weight is desired.

School Children Can't Afford Handicaps

In a remarkable test, recently made under the supervision of the State Board of Health of Minnesota, over 9000 school children were questioned as to what they ate for breakfast.

A large percentage of the breakfasts consisted of coffee, bread and butter; coffee and oatmeal or some other cereal; coffee and hotcakes; coffee and biscuits; coffee and coffee cake, or coffee alone. Probably the same conditions prevail everywhere throughout the country,

"IS IT ANY WONDER," SAYS THE EXAMINING PHYSICIAN. "THAT 23 PER CENT OF THESE CHILDREN HAVE FRE-QUENT HEADACHES?"

He was thinking of the chief cause-coffee. And it IS no wonder when we consider that coffee contains the powerful drug, caffeine, a nerve poison and notorious cause of headaches, heart trouble, sleeplessness, irritation, and other ills!

Parents often wonder why their children are sickly, dull and backward in school, when frequently the cause lies in the homely, accepted habit of giving them a beverage containing an insidious poison.

When scientists and Boards of Health everywhere are speaking out against the dietetic dangers to which children have been so long subjected, it is high time that parents take heed and correct these conditions. No child should be permitted to use coffee. It is easy to furnish them instead the pleasant, pure food-drink-

Instant Postum

Made from wheat, roasted with a bit of wholesome molasses, Postum contains the goodness of the grain and is a most delicious beverage, economical, convenient and free from coffee drugs or any other harmful substance.

Postum comes in two forms: The original Postum Cereal, which has to be boiled; Instant Postum-soluble-made in the cup with hot water -instantly. They are equally delicious, and the cost per cup is about the same for both kinds.
